(FOR KEY SEE REVERSE)

25X1

1. A mast with installations [] for light signals, was located on the eastern mole, approximately half-way out from the harbor entrance to Ustka (Stolpmuende). 25X1

2. [] there are no barbed wire obstructions in the dunes west of the harbor, but only bushes. In the western part of the dunes there is a dug-out which looks like the entrance to a depot. It does not seem to be of any importance, since no guard is posted by it. It can only be seen from land. 25X1

3. Approximately 500 meters west of the harbor entrance and 200 meters from the coast [] a cement bunker, approximately 40 meters high. On top of the bunker there was a 10-meter high mast with an installation as illustrated. (See Annex). [] looked at the mast at regular intervals, but never at any time observed anybody moving on it. 25X1 25X1

4. [] 25X1

5. [] At the pier northwest of the coal harbor some work is being done with cement. The work has not yet progressed [] 25X1

[REDACTED] Comment: [REDACTED]

An

25X1

earlier report about barbed-wire blockades along the coast west of the harbor seems to have been a little premature. The existence of a radar station in Ustka was confirmed previously, but [REDACTED] conflicting statements about its appearance. [REDACTED]
